HYUNDAI HY20CCS150 20V CORDLESS CHAINSAW

Some cutting jobs don't justify pulling out a full-sized chainsaw. Trimming the lower branches of a garden tree, cutting back an overgrown shrub, or reducing small sections of timber are tasks where a compact saw does the job faster and with less effort. The Hyundai HY20CCS150 is a 20V brushless cordless chainsaw with a 6" / 150mm bar. At 1.4kg net weight, it's light enough to use with one hand on accessible branches.

Specification

Model	HY20CCS150
Start Method	Battery
Bar (inches)	6
Chain Speed (m/s)	7 / 4
Chain Lubrication	Automatic
Battery Type	Lithium Ion
Voltage (v)	20
Runtime (active cutting)	Approx. 18 minutes
Gross Weight (kg)	2.54
Product Type	Chainsaw
Warranty (years)	3
Model EAN	5059608481334
