HYUNDAI HY40CCS350 40V CORDLESS CHAINSAW

Pruning established trees, cutting up fallen limbs, reducing log sections for the fire — these are not jobs for a small pruning saw. The Hyundai HY40CCS350 is a 40V cordless chainsaw with a 14" / 350mm bar, powered by two 20V lithium-ion batteries. The brushless motor drives the chain at up to 20 m/s, and the 200ml automatic oil system keeps the bar and chain lubricated throughout the cut without stopping to oil manually.

Specification

Model	HY40CCS350
Start Method	Battery
Battery Capacity	2x 4.0Ah
Bar Length (mm)	14" / 350
Chain Lubrication	Automatic
Battery Type	Lithium Ion
Voltage (v)	40
Runtime (active cutting)	Approx. 12 minutes
Gross Weight (kg)	8.15
Product Type	Chainsaw
Warranty (years)	3
Model EAN	5059608481303
