

JCB-5098

9PCS TORX L-KEY SET

The JCB TORX L-Key Set is a professional-grade toolkit designed for precise tightening and loosening of TORX fasteners. Ideal for automotive, assembly, and locksmith work, this set provides secure handling and reliable performance for a variety of tasks. Crafted from durable chrome-vanadium steel, each key offers excellent strength, wear resistance, and long-lasting usability.

KEY FEATURES

- Durable construction: Made from chrome-vanadium steel for high strength and wear resistance.
- Secure fit: Each key is precision-shaped for reliable engagement with TORX fasteners.
- Versatile set: Covers sizes T10H to T50H for a wide range of applications.
- Professional design: L-shaped keys provide excellent leverage and control.
